PEYTON FIRE PROTECTION DISTRICT

2015 Budget Message

Introduction

The budget reflects the projected spending plan for the 2015 fiscal year based on available revenues. This budget provides for the general operation of the District and facilitation of capital project expenditures.

The District has an assessed value of \$31,759,030 and has certified a mill levy or 6.130 mills in 2014 for taxes payable in 2015.

The District was formed in September, 1988 for the purpose of providing firefighting services, using volunteer firefighters, to its residents in the northeast portion of El Paso County.

Budgetary Basis of Accounting

The District uses funds to budget and report on the financial position and results of operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain governmental functions. The various funds determine the total District budget. All of the District's funds are considered Governmental Funds and are reported using the current financial resources and the modified accrual basis of accounting. Revenues are recognized when they are measurable and available. Revenues are considered available when they are collectible within the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures, other than the interest on long-term obligations, are recorded when the liability is incurred or the long-term obligation paid.

Fund Summaries

General Fund is used to account for resources traditionally associated with government such as property taxes, specific ownership tax and expenditures which include District administration, legal services, and other expenses related to statutory operations of a local government. The General Fund's primary sources of revenue are property and specific ownership taxes.

Capital Projects Fund is used to account for revenues and facilitate expenditures for capital projects. The primary source of revenue is a transfer from the General Fund.

Pension Fund is used to account for assets held by the District in a trustee capacity or an agent for individuals. The funds are held by the Fire and Police Pension Association of Colorado. The pension fund is accounted for essentially the same as a proprietary fund.

Emergency Reserve

As required under Article X, Section 20 of the Colorado Constitution, the District has rovided for an Emergency Reserve in the amount of 3% of the total fiscal year expenditures in the General Fund.
